WORK EXPERIENCE

Porsche Center Doha – Al Boraq Automobiles Co. W.L.L.
Web Developer | Doha Qatar *(Oct 2022 – Present)*

- Designed and built a Booking with e-commerce mobile app for both Android and iOS platforms.
 - Developed the Porsche Visual Reception web application, empowering service advisers to efficiently manage checklists and record client vehicle details prior to maintenance.
 - Created the Porsche Guard Patrol app, enabling guards to use their Android phones to read RFID cards at designated locations, ensuring effective patrolling.
 - Engineered the Porsche SMS web app, allowing receptionists to easily send SMS notifications to clients.
 - Designed and implemented the Porsche Test Drive web app, which tracks the status of Porsche test drives.
 - Developed a comprehensive project management and inventory system for Ventum Tech, a subsidiary company under the ownership of the parent company that also owns Porsche.
 - Crafted a sales system for Ineos Grenadier, a subsidiary of the parent company that also owns Porsche, enhancing efficiency in the sales process.
-

Optek Solutions

Web Developer | Ortigas Philippines *(May 2019 – Jun 2022)*

- Developed a School Management System tailored to the specific needs of a public school client, optimizing administrative operations.
 - Designed and implemented an e-commerce mobile application for both Android and iOS platforms, enhancing accessibility and user experience.
 - Crafted and maintained the company website, ensuring a professional online presence and effective communication with stakeholders
-

HGserv Inc

Web Developer | Alabang Philippines *(Aug 2018 – May 2019)*

- Developed HireTrades, a mobile app streamlining transactions between traders and tradies, revolutionizing the hiring process for increased efficiency.
- Implemented strategic updates to enhance the SEO performance of the company's mobile app website, improving visibility and driving organic traffic.
- Led the development and maintenance of the company website, ensuring a user-friendly interface and compelling online presence.
- API to power the functionality of our mobile application, optimizing performance and enabling seamless user interactions.
